

Tuesday Teaching/AHD Attendance

Tuesday Teaching

- Any resident on Elective or 'CPEDS' rotation is not required to attend, it is optional.
- If a resident is doing an IP within 40km from McMaster Children's Hospital, they should plan to attend teaching in person so they can return to their clinical duties by 10am.
- Any resident doing IP >40km from McMaster Hospital is not required to attend if it will significantly impact the IP rotation.

Academic Half-Day

- Any resident on Elective or 'CPEDS' rotation is not required to attend, it is optional.
- If a resident is doing an IP within 60km from McMaster Children's Hospital, they should plan to attend AHD in person. They can participate in clinical duties in the morning and still arrive at AHD within a timely manner.
- Any resident doing IP >60km** from McMaster Hospital is not required to attend if it will significantly impact the IP rotation.

** Residents are discouraged from IP rotations beyond 60 km from McMaster Children's Hospital due to distance and loss of teaching opportunities. If residents have a specific objective to meet that requires a distant IP, this will require approval from their AC/PD.
