

Elective Opportunities – Trillium Health Partners Mississauga Site

Our vibrant pediatric team at Trillium Health Partners **Mississauga Site** would be most happy working and learning from McMaster pediatric residents looking for an elective or community opportunity!

There are currently eight full-time pediatricians working at THP M-site (Drs. Abdullah, Binnington, Genier, Gwiazda, Parameswaran, Ramji, Tanguay, and Taylor). We have an on-service model on weekdays with a 12 bed pediatric unit and a 12 bed level 2B NICU. Additionally, we have a day-call system on weekdays providing PERC (ER follow-up clinic), ER, and high-risk delivery coverage. There are approximately 3000 deliveries and 12000-15000 pediatric ER visits per year.

Our hospital supported interests have led to additional learning opportunities: asthma clinic, NNFU clinic, prenatal consultation clinic, general pediatrics consult clinic, palliative care team, endocrinology/diabetes education team, neurology clinic, PALS/NRP simulated teaching). We can tailor this elective to learner needs.

We thoroughly enjoy teaching and currently support Mississauga Academy of Medicine clerks and family medicine residents.

A must for anyone seeking a well-rounded community general pediatrics/NICU learning experience!

If applying, please specify preference for Mississauga Site, as Credit Valley Site is a distinct elective. Please forward any requests to Dr. Kim Genier (kim.genier@medportal.ca)
