8. Mac Peds Website Subspecialty suggested readings

9. CPS Statements

10. AAP Policy Statements

11. Trekk.ca

- Also a downloadable free app
- It's a growing network across Canada to help improve emergency care in Canada.
- They have algorithms, learning tools, evidence based guidelines, and PPOs for managing the most common acute conditions we see

12. Openpediatrics.org

- Free FOAM from Boston Children's with learning modules and curriculum for

interested learners

- Create a free login
- Click on "Learning"
- Click on "Courses by topic"
- In the filter by search bar, write in "Resident curriculum"
- For peds resident and rotating emerg residents, I suggest doing the "7S resident curriculum". Once you start the curriculum, it will save your progress.

USEFUL APPS – some apps are free and some do require a fee
